Experience breathtaking views and reach remote places. You will travel through traditional villages, valleys and forests, experiencing breathtaking scenery. Our route takes us through Cypriot mountain villages seeing local people and village life. We visit KELEFOS BRIDGE built by the Venetians in the 15<sup>th</sup> century

We will then visit the WATERFALLS located just outside of FOINI village. A paradise-like area with its lush vegetation, cool spring waters and natural scents. We then travel to OMODHOS village, with it's cobbled stone streets and traditional village houses.

On our return journey we will stop at APHRODITE'S ROCK, the birthplace of the Goddess of Love and Beauty for a photo opportunity.
